In early November, Jurgen Appelo, David Hussman and Alexandru Bolboaca will speak at the third annual Romanian Agile & Lean conference in Bucharest. The theme is "Build A Great Team". We are certain that you will leave from this conference with enough ideas to help you improve team work at least for another year. There will be an open space session, lightning talks and an opportunity for networking with agile lean practitioners. To find out more about Open Agile Romania, visit <http://openagile.ro/>
